Nurse safety is our priority.

In healthcare, we know we can't always control the behavior of others; however, we can control how we prepare and respond. MedStar Montgomery Medical Center prioritizes nurse safety.

Here's how.

10 points*
Nurse Safety
Score

* 2025 Medstar Safety Survey

Patient Safety and Visitor Code of Conduct

Established clear guidelines to hold visitors accountable for their actions. Failure to comply will result in removal and barring from MedStar Health facilities and potential legal action.

Enhanced Security Screening

Implemented Evolv Detection Systems for concealed weapon detection.

Training Programs

Conduct ongoing training on de-escalation techniques and hands-on safety measures for associates.

Increase Security Personnel

Boosted the presence of security personnel in high-risk areas and expanded Protective Services Department.

Collaboration with Local Authorities

Ensure effective communication and coordination with local law enforcement in the event of a security breach.

Reporting Process for Workplace Violence

Established process for reporting and addressing workplace violence incidents to ensure accountability.

Our unwavering commitment to safety ensures that all individuals in our facilities can work and receive care in a secure environment
